

SUMMER CLASSES

ACADEMIC

Session I - June 15 - June 26 (no classes June 19)
Session II - June 29 - July 10 (no class July 3)

Registration opens March 27 @ 12 noon

Creative Critters: An Eric Carle Art & Music Adventure

Students will dive into the imaginative world of Eric Carle through hands-on art and music activities. Using Carle's colorful illustrations and rhythmic patterns, students will explore the connections between visual art and sound. They will create art projects inspired by Carle's books and use music to bring their creations to life!

Jump Start Kindergarten

Give your child a head start for kindergarten with this fun and exciting course! In this class, your child will build confidence and ease those first-day jitters through engaging activities. They'll participate in hands-on games, creative art projects, and fun large movement activities, all while learning important math skills like counting, number recognition, patterning, addition, subtraction, and more! Perfect for young learners ready to jump into kindergarten!

Note: Each Jumpstart Class is the same in both Session 1 and Session 2.

Jump Start First Grade

Get your child ready for first grade with this exciting class! Students will dive into daily activities that build the skills they need for success. They'll work on C.G.I. math problems with different number sets, strengthening their math abilities, and they'll explore Writer's Workshop, where they'll learn how to write, revise, edit, and publish their own stories. This class is designed to make learning fun and prepare students for the adventures of first grade!

Note: Each Jumpstart Class is the same in both Session 1 and Session 2.

Jump Start First Grade - Reading Readiness

This class helps students build the key skills they need for a strong start in first grade. Each day, children will participate in Writer's Workshop to create and revise their own stories, and strengthen early reading skills through phonics and comprehension activities. The class is designed to make learning fun while preparing students for the year ahead.

Note: Each Jumpstart Class is the same in both Session 1 and Session 2.

Jump Start Second Grade

Students will encounter daily activities that will prepare them for second grade success. They will use manipulatives to solve and discuss CGI math story problems, participate in guided reading groups, participate in Writers Workshop with an emphasis on adding details, editing and revising with a published story at the end of each week. First grade sight words, language conventions and math fast facts will be reviewed.

Please note that each Jumpstart Class is the same in Session 1 and Session 2.

Session 1 & Session 2 **\$190** per class.

20% off Second Class 40% off for Additional Classes

Applies to individual students or siblings. Supervised recess is held between classes.

SUMMER CLASSES ACADEMIC

Creative Writing w/ Chrissy 2nd -5th

Students will explore their imaginations and become confident young writers. Through engaging activities, writing games, and guided mini-lessons, kids will learn how to create characters, build exciting plots, and bring their ideas to life on the page. They'll write stories, poems, and creative pieces while practicing skills like brainstorming, revising, and sharing their work with others. This class is designed to spark creativity, build writing confidence, and make summer learning enjoyable.

Jump Start Third Grade

Students will be exposed to fundamental third grade concepts and skills so they are prepared for and continue their forward momentum towards 3rd grade success. The course will include lessons in reading, fast facts, C.G.I. and multiple writing activities that focus on paragraph development and descriptive language.

Please note that each Jumpstart Class is the same in Session 1 and Session 2.

Creative Writing w/ Francisco 3rd -5th

Students will explore their imaginations and grow as creative writers. They will learn how to develop strong characters, build engaging plots, and write with detail and voice. Through writing games, mini-lessons, and plenty of time to create, students will craft stories, poems, and other creative pieces. They'll also practice revising and sharing their work in a supportive, encouraging environment. This class is designed to spark creativity, build confidence, and make writing an enjoyable part of summer.

Jump Start Fourth Grade

Students will participate in various writing activities with an emphasis on sentence structure, grammar, and punctuation. Students will also be exposed to fundamental fourth grade math concepts in Number Sense, Algebra, and Measurement & Geometry to prepare them for a smooth transition to fourth grade.

Please note that each Jumpstart Class is the same in Session 1 and Session 2.

Jump Start Fifth Grade

Students will encounter activities in writing and math that will prepare them for fifth grade success. They will participate in various writing activities with an emphasis on sentence structure, grammar, and punctuation. Students will be exposed to fundamental fifth grade math concepts in Number Sense, Algebra, and Measurement & Geometry to prepare them for a smooth transition to fifth grade.

Please note that each Jumpstart Class is the same in Session 1 and Session 2.

Session 1 & Session 2 **\$190** per class.

20% off Second Class 40% off for Additional Classes

Applies to individual students or siblings. Supervised recess is held between classes.

SUMMER CLASSES ACADEMIC

Chess

Unleash your inner chess champion with this fun-filled summer chess class designed specifically for elementary school children! Our program aims to introduce young minds to the fascinating world of chess, helping them develop critical thinking, problem-solving skills, and strategic planning in a supportive and engaging atmosphere.

Escape Room

A fast-paced, puzzle-packed adventure where kids become code-crackers, clue-hunters, and master problem-solvers. Escape Room Summer Class turns teamwork and imagination into the keys for "breaking out" of themed challenges each week. Kids work together to uncover hidden messages, solve riddles, decode symbols, and complete hands-on tasks that stretch their logic, creativity, and communication skills.

Leadership Lab

Young leaders, step into the lab! Students will develop essential leadership skills in a fun and interactive environment. Through team-building games, creative problem-solving challenges, and hands-on projects, participants will learn how to communicate effectively, collaborate with others, and make confident decisions. The Leadership Lab is all about discovering strengths, encouraging teamwork, and inspiring kids to lead with kindness and creativity. Join us to build skills that make a difference both on and off the playground!

Word Wizards & Verse Voyagers

Poetry & Book Club- students will explore the magic of words through poetry and literature. Students will read and discuss a variety of books, discovering themes, characters, and storytelling techniques. They will also express their creativity by writing their own poems, experimenting with different styles and forms. Through group discussions, fun writing activities, and shared reading experiences, students will build confidence in both reading comprehension and self-expression.

Creative and Narrative Writing 3rd - 5th

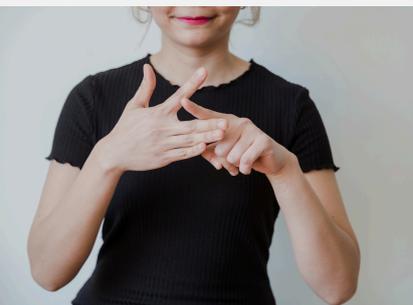

Are you obsessed with Dog Man or Captain Underpants? Can't put down Harry Potter or Diary of a Wimpy Kid? If you love reading great stories, it's time to start creating them! Join us this summer for the Creative and Narrative Writing Class! This isn't your average English lesson—it's a deep dive into the art of storytelling. We're going to unlock the secrets of the writing process, taking you from a tiny spark of an idea to a finished masterpiece. Don't just read the adventure- write it!

Session 1 & Session 2 **\$190** per class.
20% off Second Class 40% off for Additional Classes
Applies to individual students or siblings. Supervised recess is held between classes.

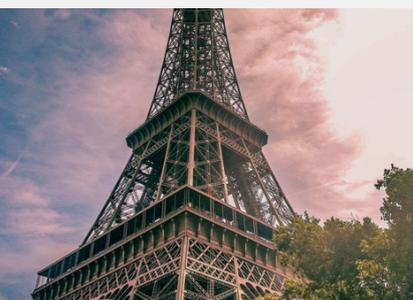

SUMMER CLASSES LANGUAGES

American Sign Language

In this fun summer class, kids will learn sign language ! They'll discover how to communicate using American Sign Language (ASL) while playing engaging games that reinforce vocabulary and phrases. It's a playful way to build language skills, promote inclusivity, and have fun with friends!

Fun with French

Bonjour! Would you like to learn how to «parler le français ?» Have fun learning the basics of French language in a dynamic and interactive environment! In this class students will be introduced to foundational French vocabulary and phrases. Students will practice conversation with their classmates and learn about French culture, arts and cuisine. Instruction will include movies, videos, games and fun activities that will immerse you in all things French. Très bien!

Spanish - Intro

In this class, students will begin their journey into the Spanish language by acquiring basic vocabulary. They will engage in personalized and enjoyable activities, including songs, acting, storytelling, and games. Essential vocabulary and grammar will be introduced gradually, in context, with support from visual, auditory, and kinesthetic aids to ensure learning is both effective and enjoyable.

Spanish

In this class, students will acquire basic vocabulary and grammatical structures that will allow them to engage in fundamental conversations in Spanish. Through personalized and engaging activities like student-centered conversations, songs, acting, compelling stories, and games, students will immerse themselves in the language.

Session I - June 15 - June 26 (no classes June 19)
Session II - June 29 - July 10 (no class July 3)

Registration opens March 27 @ 12 noon

Session 1 & Session 2 **\$190** per class.
20% off Second Class 40% off for Additional Classes
Applies to individual students or siblings. Supervised recess is held between classes.

SUMMER CLASSES ART

3D Art

Join our 3D Art Summer Class for elementary kids! Students will create fun sculptures and projects using cardboard, paint and other fun art supplies- learning basic 3D techniques. It's a creative and hands-on experience that helps develop imagination and fine motor skills while making unique art to take home!

Art Explorers

Art Explorers invites children to explore art in a joyful, open-ended way. In our studio, the focus is not on copying a sample or creating a "perfect" final product. Instead, we celebrate creativity, experimentation, and the process of making. Throughout the class, students will explore a variety of artistic media and tools in an open-ended environment. They will experiment with color, texture, shape, and form while making their own creative choices. Students are encouraged to follow their curiosity, test ideas, and solve problems as they work.

Artists R Us

Students will explore the life and history of each artist, as well as the geography for each. Students will learn about each artist's techniques while exploring various textures, colors and enhancing their fine motor skills. We will engage and create a project inspired by and relating to each master artist. In Art there are no right or wrong pieces, only the joy of creating. Within each of us there is an Artist in Us All!!

Comic Creators Club

In this class, students can expect to learn how to write different comic strips. Students will learn the importance of character and word choice, and the purpose in which they write. In addition, students will understand how comics began while learning different events in history and science in which they have been used. Students will look at different stylistic choices that famous comic book/strip authors use to pull in their readers. This will help students in writing, reading, speaking, and communicating.

Anime/Manga

Students will learn how to draw their favorite Anime and Manga-style characters while developing their own unique artistic style. The teacher will guide students through the basics of facial expressions, character design, action poses, and simple backgrounds. Once they've built their skills, students will bring their ideas to life by creating their very own comic strips. This class is perfect for young artists who love to draw, imagine, and tell stories through art.

Session 1 & Session 2 **\$190** per class.

20% off Second Class 40% off for Additional Classes

Applies to individual students or siblings. Supervised recess is held between classes.

SUMMER CLASSES ART

Crochet Club

Come learn the basics of crochet!!! Kids will create their very own handmade projects. With step-by-step guidance, children will practice how to hold a hook, make simple stitches, and follow beginner-friendly patterns. Throughout the class, they'll work on small projects like chains, bracelets, and simple shapes they can proudly take home. This club is perfect for young creators who enjoy hands-on activities and want to learn a new skill in a supportive, encouraging environment.

Monster Mash Art: Character Design

Design an original character on paper, sculpt it, and make it come to life through mixed media art techniques. This class will explore armature building, papier-mâché, found-object art, and several other methods of sculpture building. Students will work their way through the process of turning a 2D character design into a 3D sculpture.

Multi Media Art: Watercolors, Oil Pastels, Origami and Cartoon

Learn to express themselves through creating their own unique style while engaging and having fun exploring the arts.

Print Making & T-Shirt Design

Learn the basics of carving stamps, cyanotype printing, and more printing techniques! Work as a group to design a class logo, and apply all of your creations to your very own t-shirt.

Ocean Explores

Grab your goggles and dive into a world of underwater wonder! In Ocean Explorers, young adventurers will journey through coral reefs, deep-sea trenches, and kelp forests all without leaving dry land. This hands-on, imagination-fueled class brings the mysteries of the ocean to life through exciting experiments, creative crafts, and playful games.

Session 1 & Session 2 **\$190** per class.
20% off Second Class 40% off for Additional Classes
Applies to individual students or siblings. Supervised recess is held between classes.

SUMMER CLASSES ART

Sparkle and Shine Studio & Embroidery

Let's sparkle and shine this Summer! We will create friendship bracelets, necklaces, and unique art projects! Kids will learn how to make colorful necklaces, bracelets and various accessories using beads, strings, and other materials. This hands-on class fosters creativity and fine motor skills, perfect for young artists. All materials provided-just bring your enthusiasm and imagination.

Sew Much Fun!

Let's Sew!!!! In this class kids will create their very own pillows! Students will learn the basics of sewing, including how to stitch by hand, follow patterns, and use a sewing machine. This hands-on class is perfect for young crafters who want to bring their imagination to life with a cozy, handmade project. All materials are provided, so just bring your creativity and excitement. Let's sew and make something special together!

Sewing for Beginners

The kit comes with 5 adorable sewing craft projects. It includes pre-cut felt, floss, needles for a unicorn, fairy, rainbow, butterfly & star. Perfect for beginners to learn hand sewing techniques and build confidence Class will stimulate creativity, motor skills and problem solving with 3 levels of complexity. (Cymbana Kids Sewing Kit for Beginners)

Colorful Creations

A vibrant summer enrichment art class where young artists will embark on a journey of creativity and exploration! In this class, students will use a variety of mediums to create fun and imaginative art projects. Some projects will be inspired by stories we read together, while others will connect to other subjects and personal experiences. Throughout the course, students can expect to stay busy with hands-on activities, take creative risks, and most importantly, have fun.

Under the Sea Summer Art w/ Mrs. B

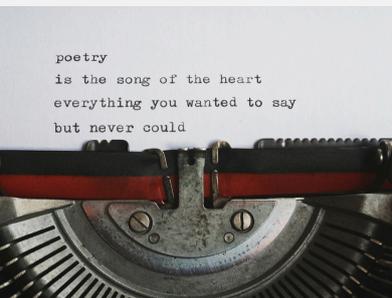

Fire up your child's imagination through a variety of mixed mediums. Renowned Brienne Burtness shares her passion for art as your student explores different techniques and mediums.

Session 1 & Session 2 **\$190** per class.
20% off Second Class 40% off for Additional Classes
Applies to individual students or siblings. Supervised recess is held between classes.

SUMMER CLASSES VISUAL ARTS

Poetry Adventures

In this fun and exciting class, we'll explore the wonderful world of poems through reading, writing, art, and presentation. We'll start by reading playful poems that spark our imagination and help us see the world in new ways. Then, we'll try our hand at writing our own poems—using fun words, rhymes, and even our own drawings to bring our poems to life! You'll get to create beautiful art to go with your words and even share your poems with the class through fun presentations. By the end, you'll feel like a true poet, artist, and performer!

Sew Much Fun!

Let's Sew!!!! In this class kids will create their very own pillows! Students will learn the basics of sewing, including how to stitch by hand, follow patterns, and use a sewing machine. This hands-on class is perfect for young crafters who want to bring their imagination to life with a cozy, handmade project. All materials are provided, so just bring your creativity and excitement. Let's sew and make something special together!

Sewing for Beginners

Join our fabulous sewing teacher for a fun and creative summer sewing class designed just for beginners! Students will learn the basics of hand-sewing and simple machine skills in a safe, supportive environment. Throughout the session, children will practice threading a needle, sewing a button, making basic stitches, and following beginner-friendly patterns. They'll create small projects they can proudly take home—like simple pouches, felt creations, or mini stuffed items.

Photography

"You don't take a photograph, you make it." – Ansel Adams.

In this interactive class, we will see the world through an artist's eye and explore what makes an interesting photograph right within our surroundings. Learn to take beautiful photos and tell a story without words. Each day we will practice a new compositional concept to grow our skills as photographers. Each artist will take home a print of their favorite photograph at the end of the session!

iPhone/Android or Digital Camera is required for this class.

Under the Sea Summer Art

Fire up your child's imagination through a variety of mixed mediums. Renowned Brienne Burtness shares her passion for art as your student explores different techniques and mediums.

Session 1 & Session 2 **\$190** per class.
20% off Second Class 40% off for Additional Classes
Applies to individual students or siblings. Supervised recess is held between classes.

SUMMER CLASSES STEM

Math Makerspace

Do you have a child who loves gaming, sports, Legos or even just playing outside? In this class, we focus on what a child enjoys while fostering a foundational, hands on mathematical approach to learning. Using real world scenarios, students will use their creative skills to build and bring scale models to life using everyday materials and a growth mindset. Open to all math levels and abilities, this class will help your child to understand the connection between foundational math skills and how they apply to what they might not realize they love about math...Yet!

Weird Science

Science is amazing, but it can also be full of crazy WEIRD things you won't believe until you see it! Like turning an egg into rubber and watch it bounce or and make popcorn dance in water

1. Students will explore through hands-on experiments
2. Students will demonstrate knowledge of course by identifying
3. Students will keep a journal and record all data from experiments, discoveries

Deep Sea Science

Ever heard of a Blobfish? A glowing Vampire squid? Or a flashlight fish? You will in Deep Sea Science, and so much more!

Learn about the amazing creatures that live nearly 2 miles under the sea, take a "virtual visit" to the deepest place on earth—the Mariana Trench, get close up and personal with the many mysteries that lie at the bottom of the sea and make some "fishy" friendship bracelets to remember it all.

Rooted in STEM

In this hands-on class, we will foster an appreciation for nature by: learning to plant, grow and care for plants; caring for the on-campus garden; and identifying plants and insects. We will promote healthy eating habits with thematic snacks at We will use the garden as a living classroom for subjects like life cycles, nutrition and observation. The students' interests will shape what we dig into and explore, allowing your child to discover innovative approaches to solving problems while being creative and having fun.

Little Green Thumbs (Gardening)

Kids will explore the exciting world of gardening and the amazing life cycle of a butterfly! They'll learn how plants grow, from seed to bloom, and discover the different stages of a plant's life cycle. Alongside their gardening adventures, they'll also watch and learn about the life cycle of a butterfly, from egg to caterpillar to chrysalis, and finally, to a beautiful butterfly. Through hands-on activities like planting seeds, watering, and observing both plants and butterflies.

Session 1 & Session 2 **\$190** per class.
20% off Second Class 40% off for Additional Classes
Applies to individual students or siblings. Supervised recess is held between classes.

SUMMER CLASSES STEM

Escape Room

A fast-paced, puzzle-packed adventure where kids become code-crackers, clue-hunters, and master problem-solvers. Escape Room Summer Class turns teamwork and imagination into the keys for "breaking out" of themed challenges each week. Kids work together to uncover hidden messages, solve riddles, decode symbols, and complete hands-on tasks that stretch their logic, creativity, and communication skills.

Dino Discovery

Join us for a ROAR-some summer adventure with "Dino-Discovery"! This class will take you on an exciting journey back to the age of dinosaurs. Learn amazing dino facts, participate in fun fossil digs, create dino crafts, and enjoy interactive story time and games. Come dig, discover, and have a roaring good time!

Super Spy Academy

Super Spy Academy Description: Your mission - should you choose to accept it - is to train yourself to become an elite super spy. Aspiring spies will craft their own top-secret alter egos, decode hidden messages, and uncover secret plots through daily puzzles and cryptic riddles. Using creativity and critical thinking skills, recruits will design spy gadgets, master the art of disguise, and work together to expose a double agent hidden in their ranks.

Full Steam Ahead

From slime-making with new recipes, to growing plants and exploring building strategies, the focus of this class will be hands-on FUN. The students' interests will shape what we decide to dig into and explore, allowing your child to discover innovative approaches to solving problems while being creative and having fun. We'll engage in projects that introduce and reinforce STEAM allowing students to learn through inquiry, exploration and play.

Tech-Tastic Adventures: Google Slides & Coding

Dive into a fun summer adventure with our "Creative Coding with Google Slides" class! This course will teach you the basics of coding and how to create amazing presentations with Google Slides. Learn through hands-on activities, interactive projects, and collaborative challenges while expressing your creativity and enhancing your tech skills. Perfect for young creators who are curious about coding and technology. Grades 4-5

Session 1 & Session 2 **\$190** per class.
20% off Second Class 40% off for Additional Classes
Applies to individual students or siblings. Supervised recess is held between classes.

SUMMER CLASSES STEM

LEGO Builds

Kids love machines and will love creating their own Lego Engineering. Students will work hands on with Lego encouraging basic understanding of a wide variety of engineering concepts. Students will develop their fine motor skills, learn the value of organization, participate in teamwork activities and develop other life skills such as problem solving and keeping a positive attitude!

Robotics 101

These science kits contain different individually packaged robot kit. Including bubble machine, doodling robot, balance robot, crawling robot, glider and air rocket. These STEM building toys offers endless hours of fun and imagination of science.

Stem Adventures

Get ready to have some fun while learning how STEM is found all around us. Participants will have the opportunity to participate in hands on activities and experiments, such as making slime, creating a solar s'more oven, learning about coding, and designing a board game. Get your imagination and creative ideas ready, because you're going to need to think outside the box for this fun class. The sky's the limit when you believe in yourself and use STEM!

Summer STEM Innovation Lab

Unlock your potential in our Summer STEM Innovation Lab! This exciting class empowers young scientists and engineers to create their very own individual STEM projects. The program culminates with a Classroom STEM Fair, where participants proudly showcase their projects, celebrate their achievements, and inspire their peers. Perfect for curious minds ready to innovate and have fun this summer!

STEAM Architect

This class keeps the A in STEAM! Unleash your creativity and innovation in our exciting STEAM class designed for kids! In this hands-on workshop, young minds will learn to design and create their own "arcade games" using recycled materials. This class combines the principles of Science, Technology, Engineering, Art, and Math (STEAM) to foster problem-solving skills, creativity, and environmental awareness.

Session 1 & Session 2 **\$190** per class.
20% off Second Class 40% off for Additional Classes
Applies to individual students or siblings. Supervised recess is held between classes.

SUMMER CLASSES

Robotics 101

Get ready to build, create, and explore the amazing world of robotics! In this hands-on summer class, students will work with a variety of kid-friendly robotics kits designed to spark curiosity and imagination. Throughout the program, young engineers will assemble robots, experiment with sensors and motors, and learn the basics of how robots move, react, and solve problems.

Culinary Camp

Taught by David Robles a former Sur La Table cooking Instructor, he brings his passion for cooking and vast experience and knowledge with each and every lesson. These kids cooking classes offer a fun and engaging way for children to learn basic cooking skills, explore new recipes, and develop healthy eating habits, all while having fun in a hands-on, interactive environment.

Cooking Made Simple

Students will learn to read, make and follow a simple recipe for a snack, salad or other food item in class that they can duplicate at home for their after school cravings or as a simple meal to impress their family.

Fun Food Factory

This cooking class is a fun interactive experience where children learn to prepare simple and delicious dishes. Kids will learn basic cooking skills, such as chopping, measuring, and mixing, while fostering creativity and teamwork. It's a hands-on activity that also helps kids develop a love for cooking and an understanding of nutrition. The class focuses on kid-friendly recipes, making the experience both educational and enjoyable.

Cooking Around The World

Get ready for a delicious adventure! Kids will create foods and flavors from around the globe. Each day, children will learn simple cooking skills as they prepare kid-friendly dishes inspired by different countries and cultures. Along the way, they'll discover new ingredients, practice kitchen safety, and learn fun facts about the places their recipes come from. This hands-on class is perfect for young chefs who love to taste, create, and explore.

Session 1 & Session 2 **\$190** per class.
20% off Second Class 40% off for Additional Classes
Applies to individual students or siblings. Supervised recess is held between classes.

SUMMER CLASSES ARTS

Intro to Theater

In this fun and energetic class, elementary students will explore acting through creative games, imagination, and short performances. Kids will build confidence, teamwork, and stage presence—no experience needed. Just bring your imagination and get ready to shine!

Breakdance

To obtain knowledge about breakdancing while also developing their own personality and establish confidence. Students will understand the value of discipline and hard work while having fun and dancing with others.

Musical Theater

This class is perfect for kids who love to sing, dance, and act and want to get better at it! We will start each day with fun warm-up games and team-building exercises, and then move on to our one-of-a-kind curriculum that includes self-esteem activities with Performing Arts Education! This class is for students at all talent and experience levels. We have tailored our classes to prioritize a safe and FUN environment. Please send your student with water and light weight clothing that they can move in. Your future star will have an amazing experience in this musical theater class!

Dance Your Heart Out!

Get moving and explore different dance styles in this fun and encouraging class! In this class, students will learn various styles of dance including ballet, hip hop, tap, and jazz. Students will learn dances for each of the styles throughout the session, with a final project of choreographing their own dance. This class is intended for all levels and experiences. Send your student with water and clothing they can move freely in. Let's have a fun summer of dancing and making new friends!

Emerging Artists Presents: Musical Theater & Acting

Join us for singing, acting, and dancing in this fun and engaging class that is all about the stage! We will be teaching the fundamentals of musical theatre that includes dance and vocal technique, storytelling, acting for stage, and performance technique. No experience necessary.

Session 1 & Session 2 **\$190** per class.
20% off Second Class 40% off for Additional Classes
Applies to individual students or siblings. Supervised recess is held between classes.

SUMMER CLASSES MUSIC

Intro to Ukulele

This course is perfect for the beginner ukulele player that is looking to start playing fun songs and wants to have fun playing! Fret board knowledge, string knowledge and note positions will be covered.

*Must bring a ukulele to class. Ukuleles can be bought for approximately \$20 on Amazon.

Guitar for Beginners

Beginning Guitar introduces young musicians to the fundamentals of guitar playing in a fun, supportive, and creative environment. Students learn the basics of technique, rhythm, and musical expression while building confidence and a lifelong appreciation for music.

Show Choir

Lights, music, action! In Shining Stars Show Choir, kids become the stars of the stage as they sing, dance, and sparkle with confidence. This high-energy class blends catchy tunes, fun choreography, and playful performance games to help young performers shine—whether they're belting out Broadway hits or grooving to pop favorites.

Registration opens March 21 @ 12 noon

Session I - June 16 - June 27
(no classes June 19 & 20)

Session II - June 30 - July 11
(no class July 4)

Session 1 & Session 2 **\$190** per class.

SUMMER CLASSES SPORTS

Playground All Stars

Get ready for a summer full of laughter, movement, and classic playground fun! Our Kids will enjoy a wide variety of games like capture the flag, dodgeball, tag challenges, relay races, kickball, and many creative team competitions.

Each day is packed with energetic activities that help kids stay active while building teamwork, confidence, and sportsmanship. Our experienced coaches create a safe and supportive environment where every child can participate, learn new games, and have a blast.

Flag Football

Ready. Set. Hike! This fun and energetic class introduces young athletes to the basics of flag football, focusing on teamwork, sportsmanship, and skill development. Through friendly drills and exciting games, kids will learn how to throw, catch, and run with the ball, all while staying active and having fun. Perfect for beginners, this camp promotes fitness, confidence, and a love for the game in a safe, supportive environment.

Soccer

This kids' beginner soccer class aims to introduce young players to the fundamentals of soccer in a fun and engaging environment, focusing on basic skills like dribbling, passing, and shooting, while also promoting teamwork and cooperation.

Jiu Jitsu

Students will be taught the rules of soccer along with the basics and fundamentals. This will include techniques like dribbling, footwork, passing, and shooting through drills. There will be an emphasis on teamwork, sportsmanship, and physical fitness. This course will also be an educational and fun environment while developing soccer skills.

Basketball

This fun, skill-intensive program is designed for beginning to intermediate players. Using our progressional curriculum, we focus on the whole player - teaching sportsmanship and teamwork. Boys and girls will learn the fundamentals of passing, shooting, ball handling, rebounding and defense through skill-based instruction.

Session 1 & Session 2 **\$190** per class.

20% off Second Class 40% off for Additional Classes

Applies to individual students or siblings. Supervised recess is held between classes.

SUMMER CLASSES SPORTS

Breakdance

Learn to breakdance, a dynamic and entertaining form of dance! Students will be introduced to the world of breakdance and learn moves like TopRock, Six-Step, Freezes, Swipes and more!

Baseball/T-Ball

Summer baseball classes for kids are an engaging way to learn baseball fundamentals. These sessions teach batting, throwing, and running bases through playful methods, making it fun for the kids. It's a great way to get young ones active and interested in sports!

Golf

This kids' beginner golf class will introduce young golfers to the fundamentals of the game, focusing on putting, chipping, pitching, and the full swing, while also teaching basic rules and etiquette in a fun and engaging environment.

Gymnastics/Tumbling

Students will learn the fundamentals of recreational gymnastics with a focus on developing tumbling skills such as: cartwheels, round offs, back walkovers, front walkovers, back handsprings, and more. This dynamic class will incorporate specific drills and conditioning structured for beginner, intermediate and advanced gymnasts who are eager to refine their physical capabilities.

Street Hockey

This kids' beginner street hockey class is designed for young players to learn the fundamentals of the sport in a fun, safe, and engaging environment, focusing on basic skills, rules, and teamwork through drills and mini-games

Session 1 & Session 2 **\$190** per class.
20% off Second Class 40% off for Additional Classes
